

Beacon Centre Tech Week

February 20- 24, 10am until 3pm

Come along to our free tech week where we will be showcasing a wide range of equipment and technology which has the power to transform the lives of those living with sight loss.

There will be VR headsets, home automation products, 3D printing, smart appliances, smart roadwork barriers, a fitness programme and the chance to learn more about connected autonomous vehicles.

On Thursday February 23rd we will also be joined by Dr Adrian Burden who is a director of the UK Cyber Security Forum who will be sharing his top tips on protecting yourself in a digital world.

We'd like to invite you to our launch event on Tuesday February 21st at 11am to come and find out more. Please can you confirm your attendance. If you are unable to attend the launch please feel free to come along to the event on any day during the week.
